

Dear Parents,

As you know, Cal's Angels was chosen by Ferson Creek as the organization of choice for their Community Service Project, and we are so grateful for that.

As a continued effort to involve the students, on Friday, December 4<sup>th</sup>, each class participated in making knot blankets for the families in our 12 Days of Christmas program. This program is so important and endearing to us as it takes the burden of holiday stresses off the families who have a child with terminal cancer. It includes:

- Gifts for the child and all of their siblings
- A gift card to Jewel to purchase their holiday meal
- A gingerbread house to decorate as a family
- And new this year .....blankets made by your children!

This allows the families to cherish their time together. In total, Ferson Creek made 128 blankets, which will allow every child to be impacted by the compassionate efforts of these students.

We are so impressed and proud of the excitement displayed by each classroom and know that our patients will truly be thankful. Kids helping kids.....that's priceless! From all of us at Cal's Angels, we thank you from the bottom of our hearts for your continued support of our organization. We wish you and your families a very safe, happy and healthy holiday season!
